

When it comes to drainage solutions, The Green Pipe stands out as a leader in sustainability, quality, and cost-effectiveness. Choose TGP for your next project and join us in making a positive impact on the environment. Together we can build a greener future.

## Environmentally Friendly

- TGP pipes are made from 100% recycled plastic, with a minimum of 95% sourced from food-grade containers, predominantly household milk and juice bottles.
- Our commitment to sustainability extends beyond recycling; we ensure that our manufacturing process has a minimal environmental impact.
- TGP doesn't use toxic materials ("Drum Muster" products) in its manufacturing process.

## SLIDE GATES

- Easy to Operate
- Very low maintenance
- Available in 250, 300, 375, 450, 525 and 600mm
- Can be fitted to pipe or headwall
- Light weight for ease of installation
- Comes with lifting gear / mechanism

## BAY OULETS

- Designed for 100% seal = no leakage
- Available in 250, 300 and 375mm
- Comes with lifting gear
- Light weight for ease of installation
- Perfect for all irrigated cropping
